Professional Summary

Aspiring Product Manager with experience in product operations, user behavior analysis, and cross-functional collaboration. Skilled in Zoho CRM, Zoho Creator, SalesIQ, and PageSense to design automated workflows, analyze customer interactions, and improve product performance. Experienced in coordinating with development teams through agile-style processes, prioritizing features, and delivering iterative improvements that enhance usability and operational efficiency.

Education

M.Sc(IT) - Dhirubhai Ambani University CPI: 7.6	2024 - 2026 Gandhinagar, Gujarat
BCA-GLS University CPI: 9.00	2021 - 2024 Ahmedabad, Gujarat
Kendriya Vidyalaya Sabarmati (CBSE) Percentage: 87.4	2020 - 2021 Ahmedabad, Gujarat
Kendriya Vidyalaya Sabarmati (CBSE) Percentage: 69.7	2018 - 2019 Ahmedabad, Gujarat

Experience

Product Manager & Web Development Intern Pulpit Mobility, Gandhinagar, Gujarat	Dec 2025 – Present
- Implemented Zoho SalesIQ chatbot journeys across 3 key website sections (homepage, corporate, support), handling 100+ visitor queries weekly and increasing lead capture efficiency. - Created 3+ CRM-integrated lead capture forms that automated inquiry tracking and streamlined the customer acquisition pipeline. - Evaluated website user behavior using Zoho PageSense to identify usability gaps and improve navigation across critical product pages. - Facilitated sprint-style coordination with a cross-functional development team of 4-6 engineers to prioritize features and monitor delivery timelines. - Enhanced React-based frontend components, improving interface responsiveness and overall product usability.	
Event Operations Medigence Solution, Ahmedabad, Gujarat	June 2025 – July 2025
- Executed operational workflows for a corporate event with 800+ participants, ensuring seamless cross-team coordination and on-time activity delivery. - Oversaw logistics with 5+ vendors and internal teams to support smooth event execution and maintain operational timelines. - Evaluated post-event engagement data using Excel and Google Sheets to identify participation trends and recommend process improvements.	
Junior PHP Developer Intern Glysis Software Solution, Ahmedabad, Gujarat	Dec 2022 – Mar 2023
- Implemented backend features and improved SQL queries to accelerate application data retrieval and enhance system stability. - Partnered with a team of 4+ engineers to translate product requirements into functional application modules. - Identified and resolved application issues through debugging while producing technical documentation and workflow diagrams for development support.	

Projects

- WorkoutWiz – Smart Fitness Assistant with Chatbot** | Android Studio, Java, Firebase, Dialogflow Team Project
- Built a fitness assistant mobile application in a team of 3 developers enabling workout tracking, automated reminders, and habit-building features for consistent daily routines.
 - Designed and implemented chatbot conversation flows using Dialogflow and integrated Firebase for real-time data storage and notification delivery.
 - Defined user journeys, 10+ chatbot intents, and system workflows while documenting testing scenarios to support scalability and future feature improvements.
- Food Delivery Platform – MERN Stack Application** | React.js, Node.js, Express.js, MongoDB Personal Project
- Developed a full-stack food ordering platform supporting authentication, menu browsing, cart management, and real-time order tracking.
 - Implemented 5+ REST API endpoints and integrated frontend with backend to enable dynamic order updates and smooth data flow.
 - Designed MongoDB schema managing 4+ core collections (users, orders, menu, cart) and optimized queries to improve application performance.

Technical Skills

Programming: Python, Java, JavaScript, C++, SQL
Frameworks & Libraries: React.js, Node.js, Express.js, Pandas, NumPy
Databases & Storage: MongoDB, MySQL, Firebase
Product & Zoho Tools: Zoho CRM, Zoho Creator, Zoho SalesIQ, Zoho PageSense, Zoho Forms
Analytics & Data Handling: MS Excel, Google Sheets, Data Modeling, Database Normalization, Jira
Developer & Workflow Tools: Git, GitHub, VS Code, Postman
Product & PM Skills: Agile Methodology, Requirement Gathering, Product Workflow Design, Stakeholder Coordination
Areas of Interest: Product Strategy, AI-Driven SaaS Development

Leadership & Campus Involvement

- Core Team Member – Operations and Management**
Synapse – DA-IICT's Largest Tech and Cultural Fest, Gandhinagar
- Coordinated large-scale campus events with 10,000+ participants, ensuring smooth execution and timely delivery of scheduled activities.
 - Led and managed 30+ volunteers to oversee event logistics, on-ground operations, and activity coordination.
 - Collaborated with 3+ departments to design event workflows, assign responsibilities, and track execution timelines.
 - Prepared operational reports and documentation that improved coordination, transparency, and communication across organizing teams.

Achievements

- Awarded **2nd place** in the *Brain Degger* coding competition for developing a functional banking website and completing timed programming tasks.
