About Me

Data-driven professional with experience in analyzing user behavior, building dashboards, and deriving actionable insights to improve business performance. Skilled in SQL, Python, Excel, and Power BI, with hands-on experience in Zoho CRM, SalesIQ, and PageSense for tracking customer interactions and optimizing workflows. Adept at translating data into meaningful insights, identifying process improvements, and supporting business decisions and process optimization in cross-functional environments.

Experience

Product Manager and Web Development Intern, Pulpit Mobility

Gandhinagar
Dec 2025 -
Present

- Analyzed **100+ weekly user interactions** using Zoho SalesIQ to identify drop-off points and improve lead conversion across 3+ website sections.
- Developed **3+ CRM-integrated lead capture forms**, automating inquiry tracking and improving data collection efficiency in the customer pipeline.
- Evaluated user behavior using Zoho PageSense (heatmaps, click tracking), identifying **5+ usability gaps** and recommending navigation improvements.
- Collaborated with a team of **4-6 engineers** to prioritize features based on user insights and business requirements during sprint cycles.
- Improved interface efficiency based on user interaction patterns, supporting better navigation outcomes

Event Operations and Data Analysis Intern, Medigence Solution

Ahmedabad
June - July 2025

- Managed operational data for an event with **800+ participants**, tracking workflows and performance metrics across 5+ teams.
- Performed data analysis using Excel (Pivot Tables, trend analysis) to identify engagement patterns and generate **3 actionable insights**.
- Coordinated with **5+ vendors and stakeholders** to ensure accurate data tracking and smooth execution of event operations.
- Identified process inefficiencies and recommended improvements to enhance reporting accuracy and operational efficiency.

Junior PHP Developer Intern, Glysis Software Solution

Ahmedabad
Dec 2022 - Mar
2023

- Optimized SQL queries to improve data retrieval speed and ensure efficient handling of application datasets.
- Translated business requirements into structured backend logic and database operations in collaboration with a **4+ member team**.
- Assisted in debugging and resolving system issues, improving application stability and workflow clarity.

Projects

Business Performance Analysis Dashboard

SQL, Python,
Power BI, Excel

- Processed **10,000+ records** using Python (Pandas) and SQL to evaluate revenue patterns, segmentation, and core KPIs.
- Executed cleaning, transformation, and feature engineering across **15+ fields**, resolving missing values, outliers, and inconsistencies.
- Performed EDA to uncover **3+ high-value segments** and **2+ low-performing categories** impacting margins.

- Developed **6+ visual components** in Power BI including KPI cards, trend lines, and regional breakdowns.
- Produced insights supporting **pricing adjustments, retention strategies, and operational decisions**.

Food Delivery Platform Analysis

SQL, MongoDB,
React

- Examined **order flow across 4+ stages** to detect drop-offs affecting completion rates.
- Structured data models covering **3+ entities** (users, orders, menu) enabling activity tracking and aggregation.
- Investigated session behavior to locate **2+ friction points** within cart and checkout sequence.
- Derived patterns on **peak hours, repeat usage, and category demand** for planning decisions.
- Validated **5+ API flows** ensuring consistent data exchange and supporting real-time operational tracking.

Education

2024	Dhirubhai Ambani University , Gandhinagar, Gujarat	M.Sc. in Information Technology
2026	CPI: 7.6	
2021	GLS University , Ahmedabad, Gujarat	Bachelor of Computer Applications (BCA)
2024	CPI: 9.0, Classification: Distinction	
2021	Kendriya Vidyalaya Sabarmati , Ahmedabad	12th Grade (CBSE)
	Percentage: 87.4%	
2019	Kendriya Vidyalaya Sabarmati , Ahmedabad	10th Grade (CBSE)
	Percentage: 69.7%	

Technical Skills

Languages & Querying: SQL, Python, Java, JavaScript

Data Analysis: Pandas, NumPy, EDA, Data Cleaning, Feature Engineering

Visualization & BI: Power BI, Excel (Pivot Tables, Charts), Google Sheets

Databases: MySQL, MongoDB, Firebase

CRM & Analytics Tools: Zoho CRM, Zoho SalesIQ, Zoho PageSense, Zoho Creator, Zoho Forms

Concepts: Data Modeling, KPI Tracking, A/B Testing, Business Metrics, Database Normalization

Tools: Git, GitHub, VS Code, Postman, Jira

Certifications

- Awarded **2nd Place** in Brain Degger Coding Competition for developing a functional banking application under timed conditions.
- Core Team Member – Operations & Management, Synapse (DA-IICT), managing events with **10,000+ participants** and coordinating **30+ volunteers**.
